## COMMERCIAL DOOR SYSTEMS

*IN STOCK*

Anemostat Lite Kits & Louvers

**Delbert's Corner:**

*Ask Delbert for a clear answer to that nagging question or to learn something new.*

**Question:** I need to order a custom metal door from HMX, but my customer prefers after-market vision lite kits to integral lite kits? What are my options?

**Answer:** This situation occurs more often than you might think, HMX is now stocking Anemostat brand vision and louver kits. This means one-stop shopping for your door and vision lites, the ability to reduce your inventory, and freight savings!

Anemostat is the **"Most Recognized Name with the Widest Product Offering"**, when it comes to vision lites and louvers. Hank Krueger of Anemostat recently remarked, *"We like to think of ourselves as selling 31 flavors and our competition only selling chocolate and vanilla."*

*"Anemostat's reputation for quality and their diverse product offering makes this partnership ideal for HMX and our customers",* remarked Derek Maczka, President of HMX, *"We are striving to do everything we can to make our customers' lives easier."*

Contact your HMX Territory Manager or visit [www.HMXpress.com](http://www.HMXpress.com) for details on HMX's [stock](#) models and sizes that are available for [same day shipping](#).

By the way, does anyone still eat just chocolate or vanilla?

Visit our web site at: [www.HMXpress.com](http://www.HMXpress.com) for product details, order forms and critical information.

#### CLUES

- *Flying a kite within the city limits is prohibited.*
- *It is LEGAL for anyone 17 and under to protest naked in front of City Hall.*
- *Wearing pajamas while fishing is illegal in this city.*
- *A law on the books, requires that every driver contact the city's police department before entering the city if driving one of those life-threatening contraptions known as an automobile. Horse drawn carriages are OK though.*
- *The city's leading newspaper published an article in 1876, claiming that a group of Paris scientists, using a new powerful telescope, had found buildings on the moon. Not only that, but the observers spotted groups of workers chained together as if they were prisoners serving on a chain gang.*
